Liddell, E. G. T.
Differences between experimental rigidities in cats 402

Liddell, E. G. T.
Observations on nervous release 410

Maas, Otto.
Disturbances of sensibility in dystrophia myotonica 449

Marquis, D. G., and Williams, D. J.
The central pathway in man of the vasomotor response to pain 203

McAlpine, Douglas.
Familial neuromyelitis optica: its occurrence in identical twins 430

McConnell, Adams A., and Mooney, Alan J.
On normal discs in patients with chiasmal lesions 37

McConnell, Adams A., and Parker, Lee H.
A deformity of the hind-brain associated with internal hydrocephalus: its relationship to the Arnold-Chiari malformation 415

Mooney, Alan J., and McConnell, Adams A.
On normal discs in patients with chiasmal lesions 37

Moore, Matthew T., and Stern, Karl.
Vascular lesions in the brain-stem and occipital lobe occurring in association with brain tumours 70

Navasquez, S. De, and Treble, H. A.
A case of primary generalized amyloid disease with involvement of the nerves .. 116

Nevin, Samuel.
Gliomatosis cerebri 170

Newman, H. W., Wilkins, R. W., and Doupe, J.
The local sweat response to Faradic stimulation 290

Nichols, Ira C., and Weigner, Walter C.
Pick's disease—a specific type of dementia 237

Northfield, D. W. C.
Some observations on headache 133

Parker, Lee H., and McConnell, Adams A.
A deformity of the hind-brain associated with internal hydrocephalus: its relationship to the Arnold-Chiari malformation 415

Pennybacker, J. B., and Denny-Brown, D.
Fibrillation and fasciculation in voluntary muscle 311

Richardson, Clifford J.
Spontaneous hæmatomyelia: a short review and a report of cases ... intramedullary angioma and syphilis of the spinal cord, as pos...

Richter, Curt P., and Hines, Marion.
Increased spontaneous activity produced in monkeys by brain lesion... 1

Russell, W. Ritchie, and Clark, W. E. Le Gros.
Cortical deafness without aphasia 375

Schwartz, Henry G., and Weddell, Graham.
Observations on the pathways transmitting the sensation of taste .. 99

Smyth, G. E., and Stern, Karl.
Tumours of the thalamus: a clinico-pathologi... .. 339

Spillane, John D.
Olfactory alloœsthesia 393

PAGE

Stern, Karl, and Moore, Matthew T.
Vascular lesions in the brain-stem and occipital lobe occurring in association with brain tumours 70

Stern, Karl.
Note on the nucleus ruber magnocellularis and its efferent pathway in man .. 234

Stern, Karl, and Smyth, G. E.
Tumours of the thalamus—a clinico-pathological study 339

Stewart, R. M.
Subacute diffuse ependymitis 192

Treble, H. A., and Navasquez, S. De.
A case of primary generalized amyloid disease with involvement of the nerves .. 116

Walker, A. Earl, and Fulton, J. F.
The thalamus of the chimpanzee 250

Weddell, Graham, and Schwartz, Henry G.
Observations on the pathways transmitting the sensation of taste 99

Weigner, Walter C., and Nichols, Ira C.
Pick's disease—a specific type of dementia 237

Wilkins, R. W., Newman, H. W., and Doupe, J.
The local sweat response to Faradic stimulation 290

Williams, D. J., and Marquis, D. G.
The central pathway in man of the vasomotor response to pain 203

SUBJECTS.

"Aphasia" in a partial deaf-mute. Macdonald Critchley 163

Brain lesions: Increased spontaneous activity produced in monkeys. Curt P. Richter and Marion Hines 1

Carbon monoxide poisoning, cerebral subcortical myelinopathy in. Y. K. Hsü and Y. L. Ch'eng 384

Cerebral vessels, vasomotor control of. Henry S. Forbes and Stanley Cobb .. 221

Cerebrospinal fluid: The origin of the fall in the pressure after its artificial elevation by jugular occlusion. T. H. B. Bedford 62

Deafness, cortical, without aphasia. W. E. Le Gros Clark and W. Ritchie Russell 375

Dystrophia myotonica, disturbances of sensibility in. Otto Maas 449

Fibrillation and fasciculation in voluntary muscle. D. Denny-Brown and J. B. Pennybacker 311

Generalized amyloid disease: A primary case with involvement of the nerves. S. De Navasquez and H. A. Treble 116

Glioma of the spinal cord, in the leptomeninges, dissemination of a. Kenneth C. Edds 298

Gliomatosis cerebri. Samuel Nevin 170

Headache, some observations on. D. W. C. Northfield 133

Hind-brain, a deformity of the, associated with internal hydrocephalus: Its relation to the Arnold-Chiari malformation. Adams A. McConnell and H. Lee Parker .. 415

Local sweat response to Faradic stimulation. R. W. Wilkins, H. W. Newman and J. Doupe 290

PAGE

Neuromyelitis optica, familial: Its occurrence in identical twins. Douglas McAlpine 430

Neurone, the, as studied by micro-incineration. Leo Alexander 52

Nervous release, observations on. E. G. T. Liddell 410

Normal discs in patients with chiasmal lesions. Adams A. McConnell and Alan J. Mooney 37

Nucleus ruber magnocellularis: Note on its efferent pathway in man. Karl Stern 284

Olfactory alloæsthesia. John D. Spillane 393

Pick's disease: A specific type of dementia. Ira C. Nichols and Walter C. Weigner 237

Rigidities in cats, the experimental differences between. E. G. T. Liddell .. 402

Sensations of taste, observations on the pathways transmitting. Henry D. Schwartz and Graham Weddell 99

Spontaneous hæmatomyelia: A short review and report of cases illustrating intramedullary angioma and syphilis of the spinal cord as possible causes .. 17

Subacute diffuse ependymitis. R. M. Stewart 192

Thalamus of the Chimpanzee. A. Earl Walker and J. F. Fulton 250

Thalamus, tumours of the, a clinico-pathological study. G. E. Smyth and Karl Stern 339

Tonic foot response to stimulation of the sole: Its physiological significance and diagnostic value. Kurt Goldstein 269

Vascular lesions in the brain-stem and occipital lobe occurring in association with brain tumours. Matthew T. Moore and Karl Stern 70

Vasomotor response to pain: The central pathway in man. D. G. Marquis and D. J. Williams 203
